

Will you be ready?

NHSN Surgical Site Infections Reporting deadline is January 2012

MedMined™ services from CareFusion can help.

What can CareFusion do for you?

- **Reduce** time spent gathering/sorting surgical data for submission
- **Improve** clinical workflow and efficiency
- **Streamline** NHSN reporting process

Features

- **Review** all surgical data by procedure, surgeon or surgical service
- **Select** procedures for inclusion in denominator individually or according to your monthly reporting plan
- **Automatically populate** NHSN event form fields with surgical procedure, laboratory and patient data to minimize re-entry time and errors
- Evaluate and **approve** all infection events for accuracy and completeness prior to NHSN submission
- Upon completion, all selected SSI events and denominators for procedure data are bundled into a **NHSN compliant CDA file** ready for your submission
