

Triseptin[®]

70% Ethyl Alcohol

Water-Aided Surgical Hand Scrub

Application Instructions

- 1.** Clean under fingernails with a nail pick.
Wet hands and arms.
- 2.** Dispense palmful (approximately 7mL) of Triseptin[®] Scrub into palm of one hand by depressing foot pump.
- 3.** Insert and twist fingertips of opposite hand into solution for several seconds, working Triseptin under the nails.
Transfer Triseptin to opposite hand, and repeat this step with fingertips of other hand.
- 4.** Rub Triseptin over hands and forearms to just past the elbow, paying attention to nails, cuticles and interdigital spaces. Wash for 90 seconds. Add water throughout wash to create additional lather.
- 5.** Rinse thoroughly. Repeat steps 2–4, washing to just below the elbows. Rinse completely.

Rinse Triseptin completely before entering OR.

Do not use if you are allergic or have known or suspected hypersensitivity to any ingredient in this product. **Stop use and ask a doctor if** irritation or redness develop.
